From Our Superintendent/Principal

Why should you attend your child's parent/teacher conference? This is the chance for you and your child's teacher(s) to have a few minutes of uninterrupted time to talk about your child's strengths and weaknesses both academically and socially. Our teachers spend 6-7 hours a day with your child and they see your child both at work and at play. They have a great deal of information to share with you. You see your child in a different light and you too, have information to share. Together, you and your child's teacher(s) can work together to provide a positive experience at school and at home.

Why should your middle school attend their conference? As our students grow and mature through the middle school grades, we want them to learn independence and ownership of their grades, social interactions, and behaviors. It is important that they come to the conferences to be a part of the academic and social discussion with you and their teachers. Ultimately, it would be wonderful to have student led conferences where students are setting their academic and social goals for their futures. We will see you during conference week.
